### Are Not So Strict About Carrying Documents Now.

Young men of military age will not necessarily be held liable to severe punishment for not carrying documents showing the reason why they are not in military service. A new order has been issued from Ottawa allowing greater latitude where by prima facie evidence can be accepted in cases where the documents are not available.

The new order explains that although police cannot accept the word of an utter stranger in regard to the fact that he is exempt from military service that sort of papers and documents that the man can produce will depend on his own circumstances. This action was taken by the Ottawa authorities owing to the large number of complaints received of cases where the man was arrested and penalized for not having the proper documents in his possession despite the fact that he was able to prove to the police his immunity from service.

#### IS IT COINCIDENTAL?

The Kaiser has asked for a new national anthem for Germany. He must be planning to move the watch further back from the Rhine. Which, strangely enough, coincides almost exactly with our plans.—Kansas City Star.

#### ST. ALBAN'S CHURCH

Service next Sunday will be Holy Communion at 8 a.m. Evening Service at 7 p.m. Mr. W. H. Giggie F.G.C.M. will give a brief Recital at the close of Evening Service.

H. CLAY, Priest in Charge.

#### INSTITUTIONAL CHURCH

At the morning service last Sunday, the pastor, Rev. D. K. Allan, referred feelingly and sympathetically to the death of Jules Guerin. This is the second member of the congregation to lay down his life in the service of king and country. The prayer and sympathy of the whole congregation go out to Mr. and Mrs. Guerin in this sad bereavement.

Next Sunday, Aug 18th, the pastor will preach in the morning and Rev. H. Peters, of Bellevue, in the evening.

#### SALVATION ARMY

Sunday Services.—Directory class for young people, 11 a.m. Sunday school, 2:30 p.m. Gospel meeting, 7 p.m.

Monday, 7:30 p.m.—Bible Class. All interested in Bible study invited to attend.

Thursday, 2 p.m.—Children's Special. All children invited to attend.—Capt. Bailey and Lieut. Joyce, Officers in Charge.

Mrs. D. G. Bissett of Trail and Mrs. J. W. Briscoe of Coleman Alta., who were the guests of Mr. and Mrs. T. H. Long, will leave this morning on the Crow boat. Mrs. Briscoe is returning to her home after visiting her father, K. Buxendale, in Roseland and Mrs. Bissett is going to Edmonton for a visit.—Nelson Daily News.

Yellow fever is raging in Guatemala and the deaths amount to forty daily.

Owing to food conservation Toronto garbage has been cut down more than 75 per cent.

Mr. and Mrs. H. Gate of Coleman, Alta., were registered at the Madden last night.—Daily News, Nelson.

### \$500 Silver Cup For Best Bushel Wheat.

The Department of Colonization and Development of the Canadian Pacific Railway announces that it will award a silver cup valued at five hundred dollars for the best bushel of hard spring wheat exhibited at the International Soil-Products Exposition at Kansas City, Mo., October 16-26th, 1918. All farmers in Western Canada who have good hard spring wheat should be interested in this announcement and it is hoped that among them will be found the successful competitor.

Wheat has become a vital factor in the conduct of the war and the Railway Company hope in this way to encourage production of the best varieties. At the same time it is hoped this competition will focus attention upon the immense food producing possibilities of Western Canada. Canadian farmers have been winners of many competitions of the International Soil-Products Exposition and the winning of this cup by one of their number would be an appropriate climax to a series of triumphs.

It is expected that boards of trade, agricultural societies, farmers' organizations and other public bodies throughout Western Canada will interest themselves in seeing that the very best bushel of wheat in each of their respective districts is entered in this competition. Individual farmers will also no doubt be eager for the distinction of winning this cup. Particulars as to the exhibit may be had by addressing Robert J. C. Stead, Publicity Agent, Department Colonization and Development, C. P. R., Calgary.

While fishing at the North Fork Rev. D. K. Allan had the misfortune to catch his own thumb, and striking sharply, as is the habit with trout fishermen, imbedded the barbed hook deeply in the flesh. Mayor Morrison, with assistance secured at a ranch house, a pair of scissors, operated on the spot and saved the thumb. Mr. Allan however, has arrived at certain conclusions in regard to fish hooks and fishing which may reach his parishioners later.

"Hunger Stone" near Tekseben in River Elbe, which is taken by German tradition to forecast famine when it becomes visible, can now be seen for first time since start of war. Stone lies in bed of river and is visible only on exceptionally low water. On stone is chiseled: "When ye see me ye will weep."—Wall Street Journal.

The relaxations of the restrictions in connection with the carrying on the person of military papers will be welcomed by all concerned as the enforcement of the regulations frequently led to entirely undeserved hardship. The carrying of registration slips, particularly within the province where the registrant is domiciled, should also be made unnecessary.

Hand knitting for the soldiers and sailors is to be checked in the states until the war industries board can survey stocks and ascertain whether there is enough woolen and worsted in the country for winter uniforms and overcoats.

The New York Sun says that among other reasons for not going to Hell is the excellent one that place is being filled up with Germans.

Canadian Government is Contemplating Their Introduction.

War savings stamps, which have been bringing millions to the United States treasury for some time past, are to be introduced to the Canadian public. The government has now in contemplation the inauguration of the new system of public saving and new source of revenue. In the United States war savings stamps may be purchased for small amounts. They are given in lieu of change in stores and shops, and are sold on the streets. The purchaser pastes them in a book and when he has secured a sufficient number he may exchange them for a war certificate of value to a certain percentage in excess of the price paid for the stamps.

**ANY CORN LIFTS OUT,**

**DOESN'T HURT A BIT**

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can be harmlessly lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your drug-gist hasn't any freezone tell him to surely get a small bottle for you from his wholesale drug house.

**Margarine**

Margarine came into being as a substitute for butter during the siege of Paris. M. Mouriens, a French chemist and scientist, invented it by mixing milk and beef fat. The result that M. Mouriens improved and eventually patented was later on manufactured by the Dutch and the Danes. When it was found that there was not sufficient beef fat for the increased demand for the new butter, vegetable oils were experimented with, and so originated margarine as it is now known in England, of which the chief fat is a product of cocoa.

## They Too, Carry On

Angels of Mercy in Constant Peril,  
Unknown, Unhonored and  
Unsung

"The greatest hero of the war, to my mind," writes an American surgeon, "over there, is the wonderful stretcher-bearer. What fine, brave lads they are. With never a murmur, they carry, carry, carry the poor lads who have been hit. They have no protection, and by necessity they are forced to travel over all sorts of shell-scarred lands, bearing their half-frozen, breathing burdens."

We over here are prone to look upon the war, and see the fighting going over the top, or the soldier repelling attacks of the Huns. We keep our eyes upon the battle and our ears hear only the bursting of shell and the thunder of the cannon roar. That is war, we think. But no, that is not all war. For here and there in this inferno of death and destruction are the angels of mercy, themselves in constant peril, unknown, unsung and unappreciated—the heroic stretcher-bearers.—St. Paul News.

## Spying Carried On By Advertisement

No French Newspaper Containing Ads. Will Be Allowed to Circulate

A British admiralty wireless press report says: The French military authorities have taken an important step with the object of checking the operations of enemy spies. General DuBois, military governor of Paris, has issued orders forbidding the sending abroad of newspapers and periodicals containing advertisements. If journals wish to retain their foreign connections, it will be necessary for them to have special notices which advertisements are blocked out.

In taking this measure, France is following Italy, which began to block out advertisements a long time ago, after the Austro-German offensive. It is suspected that certain advertisements in French or Italian newspapers might be used for espionage purposes.

**It Will Cure a Cold.**—Colds are the common ailment of mankind and if neglected may lead to serious condition. Dr. Thomas' Electric Oil will relieve the most severe colds, inflammation speedily and thoroughly and will strengthen them against subsequent attacks. And as it cures the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

## The New International Era

Mr. Balfour on the Future of the English-speaking Peoples

I believe that in that new era the English-speaking peoples are destined to take a leading part. I believe that the co-operation between Great Britain and America is long going to secure the domination over the world of any special type of civilization, of any particular world power, but the dominating influence will be given for each race, for each nation, to develop that which is best in its own character, that which is its own history suggests is the true line of its development, and that under the aegis of a world peace, which it will yet find in the history of the world.

That, I admit, may sound to some of you a Utopian dream, and, like other Utopias, it may turn out impossible. I realize that, though I think not. But one thing is certain, that if you take the converse case, if, instead of considering what may happen if the allies win, you consider what must happen if the Germans win, then you may, with absolute certainty, prophesy that under that blighting domination freedom, democracy, power of self-determination, peace, and the auspicious intercourse between different nations, will become absolutely impossible, and that all the highest growths of civilization will be killed at the root. That seems to me an absolutely irrefutable truth, and it is for that reason that I feel that the whole future of mankind—not the future of the British Empire or the American people, not the future of France or Belgium or Italy, not the fate of small nations, but the whole future of civilization—is in the balance. That cause is so great that there is not one of us who would not sacrifice everything we possess to realize it. From a Recent Speech by Arthur Balfour.

**35 Per Cent. Increase in Hogs**

The Winnipeg Free Press reports an expected increase of 35 per cent. in Alberta's output of bacon this year. There was a smaller percentage of losses among the young pigs this spring than for the last three years, and it is now pretty well assured that all the population of native hogs in Alberta over the province will be multiplied in about the proportions hoped for when the increased production campaign was started.

**Fate of Germany Hangs In Balance**

Will Be Decided by Third Phase of Offensive, Declares the British Press

Commenting on the German offensive, the London Star says: "The third phase of the battle which commenced on March 21 will decide the fate of Germany. It cannot decide the fate of the allies, for whatever may be the issue, the war will continue until America and the Americans can turn the scale and deliver the world forever from Russian hegemony. The Germans are not going to win; there are great armies of the French between them and Paris."

"We expect these armies, with the rapid increase in the American army, to beat them flat. We decline to go half way toward defeat of any kind. We believe in victory and nothing but victory."

"We have beaten the Germans in a hundred battles since Mons. We shall beat them now."

## Schoolboy Heroes

There is not one boy in the Calgary schools who can be affected by the military law, according to Dr. Scott. There is not a boy in the schools over 15 years of age, although before the war there were many over 20. The enlistments from the schools have been remarkable. The last group of boys who went to join the flying squad were not over 18. It is not surprising, therefore, that arrangements have been made for paying in each school a honor roll bearing the names of the lads who have enlisted. After the war is over it is intended to make these records permanent.

## CURING SKIN TROUBLES

These Are Always Due to Bad Blood Which Must Be Enriched and Purified

So many people, both men and women, suffer from skin troubles, such as eczema, blotches, pimples and irritations that a word of advice is necessary. It is a great mistake for those suffering from troubles of this kind to apply themselves with greasy ointments. Often they could not do anything worse, for greasy ointments close the pores of the troubled skin and the condition becomes actually worse.

When there are pimples or eruptions, or an irritating or itching rash, a soothing boric acid solution may help to allay the irritation, but of course that does not cure the trouble. Skin complaints come from an impure condition of the blood and will continue until the blood is thoroughly purified. It is well known that Dr. Williams' Pink Pills have effected the best results in many forms of skin troubles.

## Will the Submarine Become More Deadly?

To Counteract This Menace Against the Freedom of the Seas

Will the submarine relatively be as powerful a decade hence? It must be remembered that the first use of the submarine in its super-patented have been achieved against a merchant marine conceived and constructed when the submarine was at the beginning of its development and before civilization knew that the Hun at sea was capable of Dark Age barbarities executed with twentieth century ingenuity. What a mark a going-gold tramp steamship, offered to a torpedo!

The merchant ships being built in the allied yards today have for their purpose war as naval warfare, offered to a torpedo. They will be armed. They will possess speed considerably greater than a submerged submarine can develop and they will have many devices for locating a submarine and withstanding a torpedo explosion.

The world that is fighting Germany today will give its attention for many years to the development of its air and the hospital ship. It is reasonable to suppose that the inventive genius of the allies will be able to develop other methods of attack against the submarine will be developed far beyond their present efficiency.

## "Pals"

The Story of a Wounded Soldier and His Overcoat

The editor of the American Magazine asked Private Best one day to tell him the most tender, gentle thing he ever knew a soldier to do. He answered: "After the first gas attack at Ypres, in April, 1918, I was knocked out for a while and was in the clearing station at Merville. One day when I was lying there on a stretcher, a poor, miserable soldier came in. He was covered with mud and blood. He was minus his overcoat and his tunic was torn by shrapnel. He was soaked to the bone, for it was raining and he was shivering with cold and pain. The nurse hurried to him and asked him what had become of his overcoat. 'Oh,' he said, 'his teeth chattering.' 'My pal was killed back there, and he took off my coat and gave it over to me.'"

## A New Understanding

Popular Portraiture of Two Nations Have Been Wrongly Distributed

The Frenchman no longer figures in the Englishman's imagination as an embodiment of frivolous gaiety, rendered ridiculous by a love of fantastic food and dress and a touch of efficiency in his work and play. Frenchmen no longer associate Englishmen with a solid reserve, and incapacity for genial laughter, and an arrogant contempt for any diet other than roast beef and beer.

Not only are the old traditions of the nation's antiquity largely falsified by the experiences of intimacy, but it might almost be impossible to sustain the thesis that the Frenchman, which have figured in the popular portraiture of the two nations have been wrongly distributed and that truth requires a thorough-going exchange. At any rate lightness of heart is better discernible in the average English than in the French soldier.

Why suffer from corns when they can be painlessly rooted out by using Holloway's corn Cure.

## The Joy of the Simple Life

Making Our Lives Simpler and More Simple Every Day

Every sensible man and woman today is a simple life. There are so many things which are difficult to get, so many controllers are hemming us in with prohibitions that we are almost lost in the simpler, more simple every day. Curiously enough, the large majority of us are feeling the better for it. We find where we once motored, and the exercise sets the stagnant blood in our veins running with fresh vigor. We eat less and digest more. So little have we felt the deprivation that most of us are declaring that for the future they will live the "simple life" forever. There are, of course, some who struggle in their absurd vanity to keep the old life alive. Their time is mainly spent in evading the orders of the food controller, or in discovering new sources of extravagance. Sound the alarm! Realize their mistake and join the happy army of "simpler lifers." You cannot have your cake and eat it. Our cake today is victory in the great war for freedom, truth and justice. That can only be ours if we deny ourselves. This is the vision we once loved so much. The "simpler life" is doing his duty and that is why he is happy. This is the vision which, as Solomon told us, "the people prefer."—London Express.

## Editorial Comment

### PRICE REAL RESTRICTION

It is very doubtful if the removal of the restrictions from the use of pork and pork products by the Food Board will lead to any largely increased consumption on the part of people in Canada, unless it might be by the hotels and restaurants. The price of the article has had more to do with the decrease in consumption than the restrictions imposed by the Food Board. With bacon being sold at from 40c to 60c per pound, and other pork products in proportion the saving will continue for the simple reason that few people can afford to use pork freely at the price.

### ALL "AMERICANS"

A timely cartoon is appearing in United States papers. The American soldier at the front receives the home newspaper and finds all the display lines that feature the front pages are used to show what the Americans have been doing. His own surprise is just as great as that of the French poilus and Tommy Atkins, who are looking over his shoulder.

### CROPS ARE LIGHT

The statements in regard to the condition of the crops in Canada furnished to the department of statistics at Ottawa are apologetic in tone in every instance, and the only conclusion to be arrived at by their perusal is that Canadian farmers have had a particularly bad year, practically from coast to coast, small portions of a few sections of the country would appear to be almost normal in the way of cereal production, but these are too small to affect the result as a whole.

### CHAUTAUQUA ENTHUSIASM

It seems rather odd to find the western provinces enthusiastic over the Chautauqua meetings while the city of Winnipeg decided it was a money making scheme and should be cut out during the war. There may be special reasons for the difference in attitude, but one thing is certain, and that is that people are paying more money to attend Chautauqua gatherings than they have ever paid for the same class of entertainment before, and somebody is pocketing the coin. A few people in close proximity to the performance may attend regularly, but the majority of season ticket purchasers rarely take the time to attend even half the performances.

As the bakers found the glickers used as labels on the loaves of bread a rather messy nuisance the Food Board has relaxed the regulations in this respect, making it a matter of taste with the baker.

### Good Citizenship.

(From the Women's Section, Office of Director of Public Information.)

Has it ever occurred to the majority that those priceless things—ideals of liberty and justice and right living—can be neither bought nor sold? They are not heirlooms and no parent can hand them down ticketed and tied like government bonds or enclosed, like jewels, in a strong box. They may be "recommended" and even insisted upon but are adopted voluntarily or not at all.

These facts offer food for serious thought on the part of those who are responsible for Canada's future. Whatever ideals it is desirable for the citizens

of tomorrow to possess must be instilled into the consciousness of the children of today. The process is the tedious one of "line upon line, precept upon precept, here a little, there a little"—a process at times inspiring but more often than not discouraging. It is a process little realized in the main, because its workings are unseen. Not until the generation stands ready for citizenship can it be seen that damage has been done. Only then is one aware of the existence of the harmful influence. Human careers are too precious to be submitted to this exploitation and the most serious duty confronting patriots today is the provision of influences that will produce high standards of living for generations to come.

Had this truth been recognized from any other than a largely theoretical stand point by the men and women of the preceding and the present generation it would not have been possible for the vicious theories promulgated by Frederick the Great (strongly so called) to be working themselves out today in Prussian atrocities. There can not be too vigorous pushing of baby welfare movements or the establishment and maintenance of supervised playgrounds. By Scout movements, national health boards, carefully considered housing schemes, city planning and every other movement that centres in the cleanest, finest living. An examination into the things which we were most keenly concerned a decade ago will not result in a list of these things as national interests. Every one of them must be absorbing interests if Prussianism is to be stamped out forever.

Whatever may be said of war indemnities in general Germany should pay for unlawful and wanton damage done in occupied territory. In the Berlin Tageblatt its correspondent at the front, Herr Hegeler, wrote that while from the strategic point of view the battle had been a complete failure, "nevertheless success has been gained which I can register to-day. A new part of France has been laid waste. Everywhere are ruined towns, villages and farms." Other German newspapers have consoled their readers for the defeat by the cynical reflection that a German victory was as damaging to France as a German victory. That the devastation done here out of these boasts is declared by our correspondents at the front, though there was no time for the studied malice of the destruction done in the spring of 1917. The Germans have still a long way to go before they are driven on German soil, and if anything can be done to protect the regions which they still hold it should be done before the grand retreat begins. Possibly a firm declaration that Germany after the war would be held strictly to account for all unnecessary and unlawful damage done would have effect as soon as it becomes clear even to Germans that Germany is losing the war. To destroy farms and cities in order to force France to yield to German terms is an outrage for which Germany should have to pay, and it should be made clear that payment will be required.—Springfield Republican.

"The Skunk and Dolphin" by Juse Dilworth, a story of the visit of that particularly chaotic little animal with the white stripe down its back to the cabin of a French Canadian; "A Wet Breakfast on a Dry Stump" by Marjow A. Shaw, showing the psychological effect of continuous rain on the mind of an ordinary cheerful camper; "When Grandpa Jumped over the Trace," the story of a trek to the northern gold fields; "Five Sholes at Chuck" by F. V. Williams are among

the list of contents in the August issue of Rod and Gun. Such departments as Rod and Gun Mechanics, Fishing Notes and Guns and Ammunition are well maintained while a specially illustrated account of the tournament of the Canadian Indians at Niagara on the lake on July 1st and 2nd is contained in this issue. Prominent trout-shooters in Indian costume are shown in connection with this account. ROD AND GUN is published by W. J. Taylor, Ltd., Woodstock, Ont.

### Self Explanatory.

Hillcrest, August 19th.  
Editor Coleman Bulletin:

Dear Sir,—As a reader of your paper I am sending some resolutions that have gone to all the locals in District 18 and the Trades and Labor Congress of Canada. I would appreciate it as a great favor if you will kindly insert same, for the reason that it will have a great tendency to get our men to the meeting on Sunday next to discuss these resolutions, which refer to things that are badly needed. Hoping you will kindly oblige.

Yours Fraternally  
FRANK LOTE

Resolution No. 1.—Re Government Control of all Railways and Lands Belonging Thereto:

WHEREAS: Owing to the great necessity of finance of our Dominion of Canada, and fully realizing that the greater portion of our earnings is being paid to the C.P.R. and other railway companies and building up individuals as millionaires, and the great access they have to our lands, railways and homes, for which our boys are giving up their lives. Whereas, what do we find in sight for our boys' return—taxation in abundance. Why? Because, at the present time we are allowing ourselves to build up private individuals when we should be building up a fund for their return. Instead what is being prepared for them? Taxation! Why do we not have government control? Because our government is part and parcel of the whole concern. We are the Piper, therefore let us call the tune (Unity). Therefore, be it resolved—That the Government take over all railways and lands belonging thereto and collect all profits.

Resolution No. 2.—Re Tonnage Weight of Coal.  
WHEREAS, throughout the greater portion of Canada the coal miner is producing 2,240 lbs. per ton, thereby producing in excess 240 lbs. per selling ton. Taking Alberta alone, where somewhere around 8,000,000 tons per year is produced the miners are producing 720,000 tons per year without any remuneration. Therefore be it resolved—That all coal produced by the miners be a registered ton of 2,000 lbs., and same be placed on the statute book as a selling ton.

Resolution No. 3.—Re National Fund.  
Owing to past experiences following all our great disasters the time it takes to prove the dependents and the great sufferings of the widows and children (four years since Hillcrest disaster and yet some of them have not had one cent), make us feel in duty bound to form a National Fund to meet the immediate demands when disasters occur, and possibly to deal with smaller disasters, which fall to touch the nation's imagination and do not attract the charity of the multitude. Therefore be it resolved—That we petition our Government to provide a National Fund to meet all disasters.

Resolution No. 4.—Re Compulsory Insurance.

WHEREAS, having presented this to the Alberta Federation of Labor Convention in Feb., 1918 it was passed and turned over to the Executive Committee to collect all data. We still deem it necessary that not only the whole of District 18 but the Dominion of Canada have its voice, and we beg your support. Pass it at your meetings and send it to the government through the Trades and Labor Congress of Canada. Get the whole of Canada behind it. Unity will get it, therefore let us be united. If we do get it we will never regret it. Why do we want it? Let me explain a little. Take my own camp for instance there are men who never can catch their breath as long as life remains. Why do we want it? Because of its great need and benefits. We have men with wives and families dependent on charity. We have helped them over three years and have now on our books collections for the next three pay days for these brothers and we find such all through life. Sympathy only lasts a short time. Lloyd George's Compulsory Insurance protects against sickness, accidents, etc. There be it Resolved—That we urgently ask our Government to pass a bill after the manner of Lloyd George's Compulsory Insurance covering sickness, accidents, employment, etc.

Owing to unexpected pressure of other matter the explanatory portion preceding the last resolution was omitted. It is hoped the sense of the matter is conveyed in what is published.—Editor Bulletin.

## PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of  
Great Britain and Ireland and of the British Dominions beyond the  
Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come or whom the same may in any  
wise concern.—GREETING:

A Proclamation of conditional amnesty respecting men belonging to  
Class 1 under the Military Service Act, 1917, who have disobeyed our  
Proclamation of 13th October, 1917, or their orders to report for duty,  
or are deserters or absent without leave from the Canadian Expedi-  
tionary Force.

E. L. NEWCOMBE, WHEREAS consider-  
able numbers of men

belonging to Class 1 under our Military  
Service Act, 1917, called out on active service in  
our Canadian Expeditionary Force for the  
defence of Canada under our Proclamation  
of 13th October, 1917, although they have thus  
become by law soldiers enlisted in the Military  
Service of Canada.

Have failed to report for duty as lawfully  
required of them under the said Military Ser-  
vice Act and the regulations thereunder, in-  
cluding the Order in Council duly passed on  
April 20 last.

Or have deserted  
or absented themselves without leave  
from our Canadian Expeditionary Force.

And it is represented that the very serious  
and unfortunate situation in which these men  
find themselves is due in many cases to the  
fact that, notwithstanding the information and  
warning contained in our Proclamation afore-  
said, they have misunderstood their duty or  
obligation, or have been misled by the advice  
of ill-disposed, disloyal or seditious persons.

AND WHEREAS we desire, if possible, to  
avoid the infliction of the heavy penalties which  
the law imposes for the offences of which these  
soldiers have thus become guilty, and to afford  
them an opportunity within a limited time to  
report and make their services available in  
our Canadian Expeditionary Force as is by law  
their bounden duty, and as is necessary for the  
defence of Our Dominion of Canada.

NOW KNOW YE that we in the exercise  
of Our powers, and of Our good will and  
pleasure in that behalf, do hereby proclaim and  
declare and cause to be published and made  
known that THE PENALTIES OF THE  
LAW WILL NOT BE IMPOSED OR  
EXACTED as against the men who belong  
to Class 1 under our Military Service Act,  
1917, and who have disobeyed our Proclamation  
aforesaid; or who have received notice  
from any of Our registrars or deputy registrars  
to report for duty on a day now past and have  
failed so to report; or who, having reported  
and obtained leave of absence, have failed to  
report at the expiry of their leave, or have  
become deserters from our Expeditionary  
Force, PROVIDED THEY REPORT FOR  
DUTY ON OR BEFORE THE TWENTY  
FOURTH DAY OF AUGUST 1918.

AND WE DO HEREBY STRICTLY  
WARN AND SOLEMNLY IMPRESS  
UPON ALL SUCH MEN, and as well those  
who employ, harbour, conceal or assist them  
in their disobedience, that, if they persist in  
their failure to report, absence or desertion  
until the expiry of the last mentioned day,  
they will be pursued and punished with all the  
rigour and severity of the law, SUBJECT TO  
THE JUDGMENT OF OUR COURTS  
MARTIAL WHICH WILL BE CON-  
VENED TO TRY SUCH CASES or other  
competent tribunals; and also that those who  
employ, harbour, conceal or assist such men  
will be held strictly accountable as offenders  
and subject to the pains, penalties and forfeit-  
ures in that behalf by law provided for their  
said offence.

Provided however that nothing contained  
in this Our Proclamation is intended to release  
the men aforesaid from their obligation to  
report for duty as soon as possible or to grant  
them immunity from arrest or detention in the  
meantime for the purpose of compelling them  
to perform their military duty; Our intention  
being merely to forego or remit the penalties  
heretofore incurred for failure to report,  
absence without leave or desertion incurred by  
those men of the description aforesaid who  
shall be in the proper discharge of their military  
duties on or before the said twenty-fourth day  
of August, 1918.

Of all of which Our loving subjects and all  
others whom these presents may concern are  
hereby required to take notice and govern  
themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these  
Our Letters to be made Patent, and the Great Seal  
of Canada to be hereunto affixed. Witness: Our  
Right Trusty and Right Entirely Beloved Cousin  
and Counsellor, Victor Christian William, Duke of  
Devonshire, Marquess of Hartington, Earl of  
Devonshire, Earl of Burlington, Baron Cavendish  
of Hardwick, Baron Cavendish of Keighley,  
Knight of Our Most Noble Order of the Garter:  
One of Our Most Honourable Privy Council:  
Knight Grand Cross of Our Most Distinguished  
Order of Saint Michael and Saint George; Knight  
Grand Cross of Our Royal Victorian Order; Gov-  
ernor General and Commander-in-Chief of Our  
Dominion of Canada.

At Our Government House, in Our City of OTTAWA,  
this FIRST DAY OF AUGUST, in the year of Our  
Lord one thousand nine hundred and eighteen, and  
in the ninth year of Our Reign.

By Command,

Thomas Mulvey  
Under-Secretary of State

## A Message to the Young Men of Canada

Canada needs Trained Men and Women! Whatever  
be the task confronting the nation, in war or peace,  
Canada is always in peril of failure so long as the young  
people of the country are economically unfitted for their  
tasks.

Never were opportunities so great. Thousands of  
good-paying positions are waiting in every field of en-  
deavor for men and women trained to fill them—in  
offices, stores, shops, factories, mines, railroads, on the  
farms—in all lines of technical, commercial, and agri-  
cultural work.

For over 26 years the International Correspondence  
Schools have been training Canadians. Thousands  
have been helped to bigger careers through the I. C. S.  
plan. 6500 are getting ready right now.

Many of the largest employers in the country are  
interested in the work of the I. C. S. in Canada, and,  
at their request, are being informed regularly concerning  
the progress of I. C. S. students among their employees.

You can win success with the aid of the I. C. S.  
J. F. Parker, of Winnipeg, climbed from a \$40 a  
month job to a \$6,000 a year income as a Contractor.

Wm. T. Griffiths advanced from carpenter to Superintend-  
ent of Construction for Lyall and Sons, Ottawa.

E. H. Monro, Chief Engineer  
of the Dominion Textile  
Company, Windsor, and  
hundreds of Canada's foremost  
engineers, draftsmen, elec-  
tricians, and chemists pre-  
pared for promotion in  
spare time through I. C. S.  
courses.

The I. C. S. can help you,  
no matter where you live,  
what hours you work, or  
how little your schooling.

Mark and mail the coupon  
today—it will not oblige  
you in the least but  
will give us an opportunity  
to show you how to pre-
